

DUONS D77V

Digital Cordless Telephone
with answering machine

Precious as your time

D78V

reddot design award
product design 2009

The DUONS D78V differs from the other cordless phones with a very original slim design.

Sober, but endowed with a real character, the DUONS D78V will be perfectly integrated into your interior. The mix of its straight lines and its generous curves brings to it a real design product and this is intensified by the black and chromium-plated finishing.

In addition to its surprising design, the DUONS D78V presents many functions such as sending and receiving SMS, hands-free on handset, caller identification and polyphonic ringtones.
